

Child Care

Date: 2004 09 01 / 2017 04 25 / 2023 04 25

Policy Statement

The St. Clair Catholic District School Board recognizes that quality school based child care is an important component in providing children with an integrated school day and supports the establishment of child care in schools where space can be provided and at no cost to the Board.

Policy Goals

1. To promote strong partnerships between child care and school board educational programs that benefit students, families and communities.
2. To support the operation of child care programs that do not displace students in need of classroom accommodation and do not interfere or conflict with the school's educational program space requirements.
3. To support the operation of child care programs where the Board receives adequate funding to establish and maintain the child care space at no additional cost to the Board.
